EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 13-24 were canceled.

In the Specification, page 1, line 8, "February 18, 1999" was replaced with -February 18, 1999, now U.S. Patent No. 6,275,458, --.

The claims were canceled as being claims non-elected without traverse in the communication filed July 13, 2004.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Cowen discloses a method and apparatus for automatic gain control.

The following is an examiner's statement of reasons for allowance: the prior art of record considered as a whole fails to teach or suggest a method or automatic gain control circuit of determining a gain control signal for a multilevel read signal read from a multilevel medium, or a multilevel write channel or method of encoding a multilevel signal on a multilevel medium, or multilevel medium, wherein the multilevel medium includes a maximum automatic gain control mark wherein the automatic gain control mark includes a series of high level marks such the maximum signal detected in the interior portion of the maximum automatic gain control mark is not reduced by intersymbol interference and a minimum automatic gain control mark wherein the automatic gain control mark includes a series of low level marks such that minimum signal detected in the interior portion of the minimum automatic gain control mark is not reduced by intersymbol interference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Huber whose telephone number is 703-308-1549.
